

Aberdeen Responsible UK Equity Fund

Performance Data and Analytics to 31 July 2010

Objective

The Fund seeks long term growth by investing in a diversified portfolio of UK companies. Equity selection will be undertaken on the basis of thorough fundamental company analysis but environment, social and governance criteria will also be taken into account. Where an investee company's practices are considered to be lacking or deficient with regard to these criteria, the manager will encourage the company to adopt more responsible practices.

On 1 October 2008 Aberdeen Ethical Engagement UK Fund changed its name to Aberdeen Responsible UK Equity Fund and added additional stock screening to its investment approach. The historic performance figures are those of Aberdeen Ethical Engagement UK Fund.

These figures do not include the initial charge; if this is paid it will reduce performance from that shown.

Past performance is not a guide to future performance. The value of shares may go down as well as up and an investor may not get back the amount invested.

Fund managers' report

UK equities rose in line with the regional stockmarkets in July, lifted by supportive economic data and better-than-expected corporate earnings.

Preliminary data showed second-quarter GDP growing better than expected, thanks to the rebound across the services, manufacturing and construction sectors. Warm weather and a boost to spending from the World Cup drove July retail sales sharply higher, while mortgage approvals fell in June, amid tighter lending conditions and weaker confidence.

The unemployment rate improved for a fifth straight month in June, but impending public sector job cuts may cloud the prospects for the labour market.

Fund managers' report continues overleaf

The risk outlined overleaf relating to single country market exposure is particularly relevant to this fund but should be read in conjunction with all warnings and comments given in the prospectus.

Aberdeen Responsible UK Equity Fund

Fund managers' report – continued

The fragile economic outlook prompted the central bank to leave interest rates unchanged.

There were no significant changes to the portfolio in July.

Important information

Risk factors you should consider before investing:

- The value of shares and the income from them can go down as well as up and you may get back less than the amount invested.
- Past performance is not a guide to the future.
- The annual management charge for the Fund will be charged to the Fund's income account. If insufficient income is generated by the Fund to cover the annual management charge, the balance will be deducted from the Fund's capital and, to that extent, will constrain capital growth.
- Derivatives may be used to hedge against various risks as permitted by the regulations but may not be used for speculative purposes. The use of derivatives for hedging in a rising market may restrict potential gains.
- Exposure to a single country market increases potential volatility.

Other important information:

The Fund is a sub-fund of Aberdeen Investment Funds ICVC, an authorised open-ended investment company (OEIC). The Authorised Corporate Director is Aberdeen Unit Trust Managers Limited. Nothing herein constitutes investment, legal, tax or other advice and is not to be relied upon in making an investment or other decision. No recommendation is made, positive or otherwise, regarding individual securities mentioned. This is not an invitation to subscribe for shares in the Fund and is by way of information only. Subscriptions will only be received and shares issued on the basis of the current Prospectus or Simplified Prospectus for the Fund. These can be obtained from Aberdeen Unit Trust Managers Limited, 10 Queen's Terrace, Aberdeen, AB10 1YG. Issued and approved by Aberdeen Asset Managers Limited which is authorised and regulated by the Financial Services Authority in the United Kingdom.
